Sustainability

Protecting the planet is a huge ambition, and our commitment to sustainability is at the heart of our revolution. Unlike traditional liquid paints, powder coatings are free of Volatile Organic Compounds, create minimum waste, and through their durable, superdurable and hyperdurable qualities deliver longer-lasting performance. Our primers are also designed to fight corrosion for longer, adding yet another layer of protection and performance to extend the lifetime of the buildings and products they protect. And we can evidence our commitment through a series of actions: we were the first in the market to secure an Environmental Product Declaration (EPD); and in reducing the overall environmental footprint of the entire industry. It's part of our wider global commitment to be the sustainability leader in the paints and coatings industry by empowering **People**, reducing our impact on the **Planet** and consistently innovating to bring the most sustainable **Paint** and coatings solutions to our customers.

Interpon Clears

Easy Clean Clear
Gloss UZ607I

Not recommended for use where high UV exposure is likely

For internal use only

For General Industrial Range

Are recommended to be over coated with Interpon 810 Clear powder coating for exterior use or aggressive internal applications

Interpon
POWDER COATINGS

Colors displayed on this color card are a guide only and have been matched as close as possible to Interpon production standards under daylight conditions. Due to the nature of the printing process some degree of color and gloss level variation may occur. Where more than one finish is available product color may vary. We recommend that you use production line prepared samples for final color selection or approval.

Most gloss finishes on this card are available in EC technology as Made to Order **MiniB**.

AkzoNobel

We've been pioneering a world of possibilities to bring surfaces to life for well over 200 years. As experts in making coatings, there's a good chance you're only ever a few meters away from one of our products. Our world class portfolio of brands – including International, Sikkens and Interpon – is trusted by customers around the globe. We're active in more than 150 countries and have set our sights on becoming the global industry leader. It's what you'd expect from the most sustainable paints company, which has been inventing the future for more than two centuries.

Interpon®

Care and Maintenance

Over time with exposure to the elements, powder coatings may show signs of weathering such as loss of gloss, chalking and slight color change. But regular cleaning will minimize the effects and remove dirt, grime and other build-up detrimental to all powder coatings. Using a solution of warm water and nonabrasive, pH neutral detergent solution, and rinsing surfaces after cleaning, is the best way to protect the value of your asset.

Category (AS4312)	Corrosivity Level	External	Internal	Required Cleaning*
C1	Very Low	Alpine Areas	Offices, Shops	Every 12 Months
C2	Low	Arid, Rural, Urban	Warehouses, Sports Halls	Every 12 Months
C3	Medium	Coastal (Bays)	Food Processing Plants, Breweries	Every 12 Months
C4	High	Sea Shore(Calm), Swimming Pools	Swimming Pools, Livestock Buildings	Every 6 Months
C5	Very High	Sea Shore (Surf), Offshore	Heavy Industrial, Chemical sites	Every 3 Months
CX	Extreme	Shoreline (Severe Surf)	Adjacent to acidic processes	Every 3 Months

*Refer Interpon Powder Coatings – Care and Maintenance sheet for further details.
