

HARDWARE

ANDO™, ICON™ & MIRO™

Hardware is one of the defining features of windows and doors. The form and function of handles and latches provide a tactile experience that can considerably enhance the appearance and usability of your windows and doors.

At Architectural Window Systems we have developed three unique hardware ranges designed to complement the aesthetic styling of Vantage window and door systems.

Unity of design and consistency of performance shape the look and feel of the ANDO™, ICON™ & MIRO™ ranges of window and door hardware. Achieving a family likeness within each range was a priority, hence the visual theme – smooth, sleek lines for ANDO™, square contemporary styling for ICON™, and elegant curves for MIRO™.

ANDO™

Developed to complement the modern design and clean lines of the Architectural Series, the ANDO™ range brings a fresh and sleek look to residential windows and doors.

Available across the range of window and door applications and in a wide variety of finishes, ANDO™ hardware offers a family appearance providing consistency throughout your project.

The ANDO™ range includes:

- ANDO™ Twin point sliding door lock
- ANDO™ Slimline sliding door lock
- ANDO™ Single point sliding door lock
- ANDO™ Sliding window mortice lock
- ANDO™ Sliding Door 'D' handle
- ANDO™ Hinged door lock
- ANDO™ Bi-fold activator
- ANDO™ Double hung Lock
- ANDO™ Chainwinder

ICON™

The ICON™ hardware range is a fully integrated range of 316-grade stainless steel hardware for aluminium windows and doors.

The range offers superior weathering performance and outstanding durability making it suitable for all environments.

Developed for use with our high performance window systems, ICON™ incorporates a square-edge, rectilinear look which complements the lines of Designer Series windows and doors.

The ICON™ range includes:

- ICON™ Flush pull
- ICON™ Sliding door 'D' handle
- ICON™ Sliding door lock
- ICON™ Hinged door lock
- ICON™ Bi-fold operator
- ICON™ Casement latch

MIRO™

The MIRO™ range of window and door hardware is a blend of contemporary design and function. It offers a unified look from window to door.

The smooth, ergonomic MIRO™ shapes offer good aesthetics as well as a comfortable hand grip. Secure and convenient locking features have been included.

MIRO™ hardware is manufactured from die-cast zinc and available in a range of contemporary powder coat finishes to match or contrast your aluminium joinery.

The MIRO™ range includes:

- MIRO™ Sliding door lock
- MIRO™ Sliding door 'D' handle
- MIRO™ Hinged door lock
- MIRO™ Bi-fold operator
- MIRO™ Casement latch
- MIRO™ Double hung lock
- MIRO™ Cam handle

ONE KEY SOLUTION

Residential project security can be complex; reducing the number of key combinations for a project can simplify this and improve operability for end users.

The Vantage range of window and door hardware is designed to ease the complexity of home security. A range of keying options are available.

Depending upon the products and hardware specified, it is possible to achieve a single key solution for your project.

In almost all instances, Vantage window locks can be keyed alike, as can Vantage door locks, offering one key to operate all Vantage windows within your project and one key to operate all Vantage doors.

This simplified approach brings security and peace of mind to end users.

Key all windows alike and all doors alike to simplify security and operation
